relationships. 3. The structure and function of the developing brain are determined by how experiences, especially within interpersonal relationships, shape the genetically programmed maturation of the nervous system. To put it simply, human connections shape neural connections, and each contributes to mind.

Brain and Mind MARTIN DAVIES History of the Mind-Brain Relation The thesis that the brain, rather than the heart, is the seat of the mind was already widely accepted by the ancient Greeks; but it was not universally accepted " Aristotle was an exception. Many issues in psychiatry resonate with the ancient debates over the roles of
